

## PROSECCO

Refined and elegant bouquet.  
Taste with a marked consistency  
with the easy drinkability of Prosecco  
and a striking hint of glycerin.  
An excellent aperitif although it is also ideal  
throughout the meal,  
being highly digestible, excellent with all fish-based dishes.

*Grapes:* Prosecco

*Terrain type:* flat land with gravelly substrata  
covered in earthy material

*Cultivation system:* modified Sylvoz

*Density:* 3000 plants per hectare

*Harvest method:* manual
